PLS expansion connector - 9320070

Product Description	
Description	For thermal and mechanical compensation when connecting special PLS busbars from enclosure to enclosure.
Material	E-Cu
Notes	Two busbar connectors are needed to fit one expansion connector. With a temperature increase of 30 K the busbars will expand in length by around 0.5 mm/m. Consequently the use of an expansion connector is recommended for busbar systems with lengths in excess of 3 m.
Suitable for busbars	PLS 1600
Packaging unit	3 pc(s).
Weight/packaging unit	1.9 kg (4.2 lb.)
EAN	4028177162372
Customs tariff number	85369010
Product description (long)	SV Expansion connector E-Cu PLS 1600
