

Legacy Series Enclosures

Carbon Steel Wallmount Boxes

Legacy Series instrument boxes offer protection for dense wiring and sensitive small electronic and electrical equipment controls and pilot devices, such as limit switches, foot switches, pushbuttons, selector switches and pilot lights. Installed equipment is protected against splashing water, seepage of water, falling or hose directed water, severe external condensation and spraying of water, oil or coolant.

EZ Designates a product in the EnclosureZone program.

Configuration

- Continuously welded seams, finished smooth
- Robotically applied urethane gasket
- Door opens 130°
- Knife edge flange
- Easily removable stainless steel hinge pins
- Integral channel around door provides additional stability and prevents entry of water and dirt when enclosure is opened
- Quarter turn latching
- Screwdriver lock insert
- Mounting panel provisions installed
- Mounting panel available in both white (NEMA and full size) and zinc (full size) styles
- Grounding provisions on enclosure body and door
- Print pocket included

Technical Specifications**Material:**

- *Enclosure/door:* 14 gauge carbon steel

Finish/color:

- *Enclosure/door:* polyester-urethane powder coat over phosphatized surfaces, inside and outside - ANSI 61 grey

Protection Ratings**NEMA Type****Certifications/Approvals****Listings****Technical Drawings**
