

Screw Cover Pull Boxes

Carbon Steel/Galvanized Steel Enclosures

These small enclosures are ideal for housing electrical and electronic controls. They are designed for indoor use to protect installed equipment in standard environments.

Configuration

- Flat, removable covers
- Covers fastened with plated steel screws
- Key-hole screw-slot design permits easy attaching of cover to body
- Mounting holes on back wall
- Available with or without knockouts
- Covers must be ordered separately for flush installations
- Available in painted steel or unpainted galvanized steel

Technical Specifications

Material:

- *Enclosure/cover:* 12, 14, or 16 gauge steel or galvanized steel

Finish/color:

- *Enclosure/cover:* polyester-urethane powder coat over phosphatized surfaces, inside and outside – ANSI 61 grey
- Galvanized product is unpainted
