

## Stahlin Enclosure Accessories

*Easily customize your configurations!*

**Stahlin**® offers the largest selection of non-metallic enclosures in North America. However, the ability to customize into unique end-user configurations may be the single most compelling reason to buy Stahlin Enclosure products. **Stahlin Enclosure Accessories** are offered for the enhancement of your enclosure: from our patented PluggIt!® to our new thermal and lighting accessories.

Engineered modifications may become complex and are end-user specific; but these accessories can be added at any time: from the immediate enclosure purchase to an addition later as a separately priced item.

Part numbers and their specifications are shown in this literature; it will make your usage simpler whether you choose to order **Stahlin Enclosure Accessories** as add-ons, or on their own.

# Environmental Management

## Prolong the life of installed components

Robroy Enclosures features a comprehensive offering of Enclosure Environmental Management Solutions. Environmental Management products are designed specifically to prolong the life of installed components. To accomplish this, Robroy offers many specific solutions such as a variety of breather and drain vents and plugs.

## Breather Vent

Stahlin's non-metallic Breather Vent allows an enclosure to "breathe" — literally allowing the free passage of air while maintaining UL Type 4X enclosure integrity as a recognized component. **UL File #E64358 Type 4X**

## Drain Vent

Stahlin's non-metallic Drain Vent reliably protects electrical equipment housed inside an enclosure by properly draining unwanted moisture or accumulated water from within, while maintaining UL Type 4X enclosure integrity as a recognized component.

## PluggIt!®

- Superior corrosion resistance compared to rust-prone carbon steel and other metallic alternatives helps ensure increased enclosure life expectancy.
- Cost effective when compared to either carbon or stainless steel alternatives.
- Considerably better long-term resistance to UV degradation versus UV-susceptible soft rubber plugs that turn brittle from extreme temperature variations and repeated UV exposure.
- Will not create galvanic corrosion associated with dissimilar metals sometimes used in electrical enclosures.
- Maintains all chemical resistance features of current Robroy Enclosures products.
- Flame retardant material to UL 94V-0.
- A submersion/hosedown rated component for use in electrical enclosures UL recognized to type 4X and 6P.
- IEC tested to IP66 and IP68.
- Temperature Rating: -26°F to +257°F (-32°C to +125°C)
- Patented design since 2017
- UL File #E64358; Type 1, 3R, 4, 4X, 6, 6P, 12
